KERENSKY DEPOSED IN RUSSIA. PEACE TO BE ASKED.

LONDON, Nov. 8.—The Maximalists have obtained control of Petrograd and issued a proclamation saying the new government will propose immediate and just peace and will hand the land to the peasants, the semi-official Russian news agency announces.

The Maximalists were assisted by the Petrograd garrison, which made possible a coup d'etat without bloodshed.

Leon Trotzky, president of the central executive committee of the Petrograd council of soldiers and workers' delegates, issued a declaration to the effect that the provisional government was no longer in existence and that some of its members had been arrested. The preliminary parliament has been dissolved.

Premier Kerensky has been deposed. A wireless dispatch from Petrograd says that the council of soldiers and workers' delegates has announced that the split in the council has been healed and that a call has been sent out for a delegate from each of 25,000 of the population to express the will of the Russian army.

PRESIDENT ISSUES THANKSGIVING PROCLAMATION.

In the midst of worries, trials and cares incident to the press of war and other national matters, President Wilson issued his annual Thanksgiving proclamation Wednesday night, designating Thursday, November 29, as Thanksgiving Day. The proclamation, which calls upon the nation, even in the midst of war, and the sorrows and great perils of a world shaken by war, to thank God for blessings that are better than mere peace of mind and prosperity of enterprise, is as follows:

"It has long been the honored custom of our people to turn to the fruitful autumn of the year in praise and thanksgiving to Almighty God for His many blessings and mercies to us and the nation. That custom we can follow now even in the midst of a tragedy of a world shaken by war and immeasurable disaster, in the midst of great sorrow and peril, because even in the midst of the darkness that has gathered about us, we can see the great blessing God has bestowed upon us, blessings that are better than mere peace of mind and prosperity of enterprise.

"We have been given the opportunity to serve mankind as we once served ourselves in the great days of our declaration of independence, by taking up arms against a tyranny that threatens to master and debase men everywhere and joining with other free peoples in demanding for all the nations of the world what we then demanded and obtained for ourselves. In this day of the revelation of our duty not only to defend our rights as a nation, but to defend also the right of free men throughout the world, there has been vouchsafed us in full and inspiring measure the resolution and spirit of united action.

"And while we render thanks for these things let us pray Almighty God that in all humbleness of spirit we may look always to Him for guidance; that we may be kept constant in the spirit and purpose of service; that by His grace our minds may be directed and our hands strengthened; and that in His good time liberty and security and peace and the comradeship of a common justice may be vouchsafed all the nations of the earth.

"Wherefore, I, Woodrow Wilson, President of the United States of America, do hereby designate Thursday, the 29th day of November next, as a day of thanksgiving and prayer, and invite the people throughout the land to cease upon that day from their ordinary occupations and in their several homes and places of worship to render thanks to God, the great Ruler of Nations.

"In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

"Done in the District of Columbia, the Seventh day of November in the Year of Our Lord 1917 and of the Independence of the United States of America, the 142nd.

"WOODROW WILSON, President."

POLICE HAD TO CLEAR UP CONGESTED TRAFFIC.

A most unusual sight was witnessed Tuesday near the Third street freight station of the Louisville & Nashville, in Paris, when policemen were called in to clear up a congestion of traffic.

The tie-up was caused by the presence on the coal tracks of five carloads of coal, consigned to various farmers in the county. When the coal was ready to be unloaded the rush of wagons to get good positions resulted in a blockade, and as a result, all traffic in the vicinity came to a stand still.

ARMY Y. M. C. A. MASS MEETING AT COURT HOUSE.

Mr. W. O. Davis, former County Attorney of Woodford county, will be the principal speaker at a mass meeting to be held in the Bourbon county court house next Sunday afternoon at 2:30 o'clock. Mr. Davis will address his audience in the interest of the Y. M. C. A. army work, which will be undertaken by the district composed of Bourbon, Powell, Clark, Montgomery, Scott, Woodford and Harrison counties. He is an eloquent speaker, and his address will be one well worth hearing.

Members of the Bourbon county contingent at Camp Zachary Taylor will also make short talks on camp life and the Y. M. C. A. work in camp. A special musical program will be rendered under the direction of Mr. A. L. Boatright, of the Paris Christian church.

Let everyone come out Sunday afternoon, and by their presence show their appreciation of the interest being taken by our people in the welfare of "our boys" both at home and abroad.

The following is a list of the teams appointed to take charge of the work in the six precincts of Paris, each team working under a captain, as designated:

WORK OF THE FOOD CONSERVATION CAMPAIGN.

Over three thousand signed cards, whereon the signers pledge themselves to observe the conservation of food, have been turned in to Miss Lucy Simms, of Paris, Chairman for Bourbon county.

The pledges are the result of the Food Conservation Campaign, which was inaugurated in the State last week under direction of the State Food Administrator, Mr. F. M. Sackett, of Louisville. A thorough and systematic canvass was made of every house in the city and county, and almost without exception the signatures came readily.

One family out of every three in the United States has pledged support to the Food Administration plan for the volunteer conservation of food. Reports received at the headquarters in Washington show the number enrolled to be 7,406,544. Officials expect the 10,000,000 mark to be reached this week.

In connection with the food conservation campaign officials representing the Pure Food Commission were in Paris yesterday inspecting the restaurants, hotels and boarding houses as to their sanitation. They did their work quietly but efficiently, and customers at these places knew nothing of what was going on.

ROCK VIEW ADDED TO THE A. B. HANCOCK STUD.

The stud of Mr. A. B. Hancock, at Claiborne Stock Farm, near Paris, has further been augmented by the addition of the fine stallion, Rock View, seven years old, which Mr. Hancock recently purchased from August Belmont, of New York, at private sale. Rock View is by Rock Sand, winner of the Two Thousand Guineas Stake, the English Derby and the St. Legar Stake. His dam was Golden View, a full sister of Fair Play, and half-sister to Friar Rock, Golden Measure and St. Lucers.

Rock View has beaten such horses as Leochares, Cock-o'-the-Walk, Roamer, Stromboli, Borrow, Buckhorn, Ten Point, Sprite, Helen Beebe and Flying Fairy, and retired sound at the age of five years. He comes from a great racing as well as a great sire family, and could run fast, carry weight and stay with the best of thoroughbreds.

PARIS "SAMMIE" ANNOUNCES SAFE ARRIVAL IN FRANCE

A letter to Mr. George Batterton, County Judge-elect, from his brother, Mr. Bishop Batterton, from overseas, announces his safe arrival in France with a big detachment of United States soldiers detailed for duty with the Allied armies.

While stationed at the training camp at Paris Island, South Carolina, Mr. Batterton became proficient as a marksman, and was awarded two medals for proficiency as a sharpshooter. He will be a member of this special branch of the service in France, and will doubtless be able to account for many a "Boche" when the time for action arrives.

LOCAL TOBACCO MARKET TO OPEN SOON.

Arrangements are being perfected by the two loose leaf tobacco warehouses for opening their plants for the reception and sale of tobacco sometime in December, the exact date not having been decided upon. Both houses are making preparations for handling the Bourbon county crop, which is said to be the finest and largest grown in the county for many years.

Buyers from all the principal tobacco manufacturers of the country will be here, which will again assure top prices for the tobacco grown by Bourbon growers, and for those of the neighboring counties who sold their crops on the Paris market last season.

From all sources come the prediction that the market this season is going to be the very best yet, and a very large majority of the growers are holding their crops to sell over the breaks, and are not tempted to sell before the market opens.

The Lexington market will open on December 3. A number of representatives of the Lexington houses were here Monday, court day, mixing with the farmers and boosting their houses, but the local warehousemen were there also, and it is safe to assert that the Lexington men did not make much headway with the growers. This market has been one of the best in the State for several years, and Bourbon county growers have no need to send their crops elsewhere.

NAVY IS EXPECTED TO ASK FOR 80,000 MEN.

Semi-authentic information received by Chief Gunner's Mate Manegold, in charge of the Lexington naval recruiting station, indicated that the navy department will ask the next Congress for authority to enlist 80,000 additional men, when the law-making body meets next month.

The Lexington office is expecting daily word to begin the new "drive," for it is considered certain that Congress will authorize the addition of 80,000 more men to the navy's war strength.

LOWER FREIGHT RATES TO HELP COAL SHORTAGE.

The Kentucky Railroad Commission, has been in session at Louisville in regard to the complaint on coal freight rates all over Kentucky. The Interstate Commerce Commission permitted the railroads of Kentucky to raise rates on all commodities, including coal, 15 per cent., which took effect July 1.

After a thorough investigation by the Kentucky Railroad Commission, it was found that the railroads' net earnings during the last year were larger than during any year for the last ten years and under these conditions, the State Commission could not see how the railroads were entitled to this 15 per cent. increase, so they refused to permit it to continue in effect. As a result, the Louisville and Nashville Railroad Company is revising its freight rates all over the State to equalize rates from the eastern and western coal fields to all points in Kentucky. This will give all Central Kentucky a lower rate than they had prior to July 1st, before the 15 per cent. was added.

EGGS AND BUTTER IN COLD STORAGE TO BE RELEASED

Arthur Williams, Federal Food Administrator, has announced that a survey made in New York City revealed that there are one hundred million dozen of eggs and one hundred million pounds of poultry in cold storage there. He said that he would urge that these be released for sale on Tuesdays, which will be observed as meatless days. He expected co-operation of the cold storage men in this movement, he said.

POSTAGE CHANGE RATHER CONFUSING TO MANY.

Postmaster J. Walter Payne reports that the new three-cent postage which went into effect last Friday, is being carried out without any difficulty, though there has been some trouble in handling some classes of mail.

Mr. Payne says that while everybody understands the postage has been raised to three cents on letters to points outside of Bourbon county, there are many who do not know that a letter can be mailed from one point to another in the county without any increase in postage. For instance, two cents will carry a letter from Millersburg to Paris, and vice versa.

In anticipation of the increase in rates there was quite a demand on the local office for two and one cent stamps. Since then a goodly supply of the new issue of three-cent stamps has been received.

Until the Paris public thoroughly understands the new regulations, it is expected by the postal authorities that many letters will have to be returned to the writers for additional postage. The public should remember that to insure delivery to points outside of Bourbon county letters must bear three cents in postage, and postal cards an additional one cent stamp.

NOW, DENNY B. GOODE!

Following the announcement published in Tuesday's issue of THE NEWS of the purchase of sixty pounds of Miss Holladay's Candies by the Kentucky Women's Society of New York, the Kentucky Food Administration, through Assistant Food Administrator Denny B. Goode, of Lexington, telegraphed a request that the society cancel its order. The candy was to be used as prizes at a charity bridge party for Red Cross work to be given on November 13. The proceeds were to be used for purchasing blankets for the use of Dr. Barrow's Base Hospital Unit No. 40. The request was made that the society substitute some other form of prize so as to conserve the sugar supply.

The request was sent in the form of a telegram from Mr. Goode, as follows:

"Mrs. Bedell Parker, President Society of Kentucky Women, 2343 Broadway, New York, N. Y.: 'Lexington is deeply grateful for your generous assistance in purchasing blankets for the Barrow Base Hospital Unit, but for the sake of food conservation and for the example it will set, I appeal to you to cancel your order for candy and to substitute other prizes at your charity bridge party that may conserve our sugar supply for our starving allies.

"DEENY B. GOODE, Assistant Food Administrator for Kentucky."

Miss Holladay received a letter Wednesday from Mrs. Parker, asking if, under the circumstances, she would cancel the order, to which reply was made that as it was the Food Administration's request the order would be cancelled.

HELPING MT. STERLING MEN TO ORGANIZE.

Mr. Z. L. Wilcox, County Work Secretary of the Y. M. C. A., with headquarters in Paris, Mr. Henry A. Power, District Chairman of the Y. M. C. A. War Work, and Mr. W. O. Hinton, Chairman of Boys' Work of the Y. M. C. A. in this district, all from Paris, were in Mt. Sterling, Tuesday, and inaugurated a campaign to raise \$2,500 in Montgomery county in connection with a nationwide movement to raise \$35,000,000, which will be used in war work by the American Y. M. C. A. on the battle fields of Europe.

Mr. John G. Winn was designated as Chairman of the War Work Council for Montgomery county. A great mass meeting will be held in the court house in Mt. Sterling tomorrow afternoon at two o'clock, at which time Dr. W. A. Ganfield, President of Centre College at Danville, will make the principal address of the afternoon. Hon. W. O. Davis, of Versailles, will also address the meeting.

PARIS WOMAN'S INVENTION TO BE MARKETED.

Mr. Gus Heyman, of Lexington, has bought the stock of Messrs. H. P. Taylor, T. W. Brock, H. C. Garrett and J. H. Hardwick, all of Winchester, in the Premier Manufacturing Company, which was organized in Winchester a few years ago to manufacture and market an athletic waist which was designed and patented by Miss Margaret Donaldson, of Paris.

Mr. Heyman expects to reorganize the company by January 1, and to have associated with him in conducting the business Miss Donaldson, of Paris, and Messrs. Victor Bloomfield and W. L. Cotton, of Winchester. Forty machines are at present employed in making these waists, which have had a big sale on the market. About January 1 additional machines will be installed, and the working forces greatly augmented. Machinery for manufacturing a patented athletic union suit, the product of Miss Donaldson's genius, will also be added to the equipment.

THE ELECTION.

The November election was in the nature of a walkover for the Democratic candidates in Bourbon and in the city, for city and county offices, they having no opposition. The election was very quiet, nothing whatever happening to disturb the even tenor of the day.

Returns from all the precincts indicated a majority of about 200 for the constitutional amendment permitting the purchase of one telephone company by another. The bond issue for extension of the city sewer system carried by a vote of 315 to 142. The vote on the proposition of a twenty-year contract with the Paris Water Company resulted in a majority of 289 being cast against the proposition. The vote stood 95 for and 384 against. Not more than one-third of the regular vote of the county was cast, on account of there being no contest for any of the offices and but little interest was shown in the vote or the general result.

The nominees who were elected Tuesday, and who will be sworn in office on January 1, 1918, are as follows:

State Senator—George Hon. of Clark county.

Representative—C. M. Thomas, Bourbon county.

Sheriff—Will G. McClintock.

County Clerk—Pearce Paton.

County Judge—George Batterton.

County Attorney—David D. Cline.

County Superintendent of Schools—J. B. Caywood.

Jailer—Thomas Taul.

Assessor—Walter Clark.

Coroner—Rudolph Davis.

Magistrates—L. J. Fretwell, Paris precinct; E. P. Thomason, Millersburg; John S. Talbott, North Middletown; John S. Wiggins, Hutchison; John N. Shropshire, Centerville; Lee Stephenson, Clintonville; S. B. Burris, Little Rock; R. O. Turner, Ruddies Mills.

Mayor—E. B. January.

Police Judge—Ernest Martin.

Chief of Police—W. Fred Link.

Councilmen—First Ward, John Merringer, John Christman and Thomas Kiser; Second Ward, S. K. Nichols, J. J. Veatch and John Arkle; Third Ward, George Doyle.

Members of the School Board—Peale Collier, N. H. Rion and Roy Clendenin.

Returns received from practically every legislative district in the State indicate that while the Democrats will have safe majorities in both branches of the next Legislature, the party lead will be cut down in both houses, due largely to the big Democratic slump in Louisville and Jefferson county, where on the face of returns the Democrats elect only one State Senator and one representative.

The Democrats have lost three seats and probably four in the State Senate and have gained none. In the House they have lost ten and gained two, making a net loss of eight, indicated by the returns in the membership of the lower branch.

On the face of the returns the political lineup of the next General Assembly will be as follows: Senate, Democrats, 24; Republicans, 14. House, Democrats, 55; Republicans, 45.

The result in Fayette county was somewhat of a surprise. Judge Frank Bullock was re-elected County Judge; A. L. Hamilton Representative from the county, while Billy Klair easily defeated his opponent, Thomason, in the race for Representative from the city of Lexington. Police Judge John E. Riley was re-elected by a majority that was a surprise even to his closest friends.

T. C. Bradley, W. H. McCorkle, Charles H. Darnaby and Harry Shoonmaker elected City Commissioners. The defeat of George Land was a surprise. Constitutional amendment carried, but only a small vote was polled on the question. The defeat of Land was a hard blow to the city administration and takes the political control of the city out of the hands of Mayor Rogers.

INJURED MAN REMOVED TO HIS HOME.

Mr. Homer Bruce, Adams Express messenger, who was brought here badly injured last week, and taken to the Massie Memorial Hospital, has been removed to his home in Winchester. Mr. Bruce was accompanied home by his father, Mr. Zena Bruce, of Winchester, and a nurse.

The accident, which resulted in injury to Mr. Bruce happened just after the L. & N. fast train No. 33, south-bound, left Cynthia for Paris. Several hundred pounds of express matter were thrown upon Mr. Bruce when the train lurched in rounding a sharp curve. He was rendered unconscious and his predicament was not discovered until he reached Paris, and trainmen going to open his car, found him lying on the floor unconscious. He is still suffering from numerous bruises and nervous shock, but his physicians do not apprehend any serious consequences.

BRYAN SLINGING "BULL." BULL CHASES BRYAN!

William J. Bryan, former Secretary of State, was saved from a wild bull by the presence of a mesquite tree on the desert near Chandler, Arizona, Tuesday.

Mr. Bryan and R. A. Hayward, Superintendent of the Pima Indian Reservation, were duckhunting when they were chased by the bull, and succeeded in reaching the mesquite tree.

Other members of the hunting party shot and killed the bull. Mr. Bryan was unhurt, and lost part of his hunting suit in the fight from the animal.

School Management.

The most powerful agency in school management is kindness. There is no force on earth so potent as love. When it has possession of the human heart it is all prevailing and overpowering, and especially if brought to bear upon sympathetic childhood and youth. The teacher must rule by kindness, have a uniformity of good will, earnest sympathy, and hearty generosity habitually exercised toward his pupils.

The teacher alone who loves his pupils has power to gain their love and confidence, which should be their chief reliance in school management. An affectionate pupil will confide in a teacher's judgment, respect his authority and fear his displeasure. If you show him by your personal attention and kindness that you are his true friend, and that all your efforts are designed to secure his best good, and make him believe it, you hold him as by the power of enchantment, having no need of physical force to keep him in subjection.

He is held by another and higher law, which induces him to gratify your wishes and seek the best good of the school. But this kindness, which is an essential element in every true system of government, is not, and cannot be, substituted for

authority or an obstacle to severity, when the good of the individual or school demands it. The teacher must cherish an abiding love for his pupils, and that love is the indication of necessary punishment in the management of public affairs.

It is very important if some school boy reads a good essay, or speaks well a piece, or sings well a song, or stands high in the class room, that kind of mention should be made publicly of such success, for more young minds are injured by the want of cheering words than are made vain by an excess of such praise.

Some Cold Facts.

The weekly country paper has as definite excuse for being in the world as can be furnished by the city dailies. Such a publication is not only a business guide, but is a pulpit of morals; it is a kind of public rostrum where the affairs of the State are considered; it is a supervisor of streets and roads; it is a social friend, a promoter of friendship and good will.

Edited by a broad and just man, such a publication so treats the different sects that they realize their brotherhood and become in reality what they are pictured in print. The town weekly dare not be Presbyterian or Methodist, or Baptist, but it must select the valuable in each church and thus becomes a harmonizer of discord. It binds those whom theology would often separate. Even the so-called matters of a village or incorporated town are small only to those whose hearts are too full of personal interest.

A Handy Dog.

Were you ever kept awake at night by the howling or barking of a dog? Not very pleasant is it? If you know how it sounds, keep your dog locked up at night. Put him in your barn or out-shed at night so that his music will not make your Christian neighbors say things which should be left unsaid. Keep him up so your yard will not be filled with tin cans and brick bats aimed at the dog—poor innocent creature. He is only mourning for his friend who has strayed into a sausage factory. Lock him up, my friend. The deed will add a star to your heavenly crown.

Claims For Your Cash.

Just at this time the mail order houses are active in flooding the country with big, handsomely gotten up catalogues, quoting attractive prices on staple articles and making all sorts of big sounding claims for your cash. They do not offer to exchange their goods for the farmers' eggs, poultry, butter or other produce. They don't trust a penny's worth, but make you pay cash before you get the goods and the freight besides. If anything is wrong with the goods or they do not suit you, they will not change them. They pay no taxes into your city or county treasury, with which our schools are maintained, roads, bridges and sidewalks built. They do not contribute to our churches, charitable institutions, nor to our poor.

KENTUCKY TRACTION & TERMINAL CO. GETS IN GAME.

The Kentucky Traction & Terminal Company announces that, in accordance with the provisions of the new war revenue law, a war tax will have to be collected on certain interurban passenger fares and on all freight shipments, commencing November 1.

This tax is levied by action of Congress and must be paid by the passengers or shipper and transmitted by the traction companies to the government.

The amounts levied on interurban passenger and freight service by this law is as follows:

1. Three per cent. of the amount paid for the transportation of freight.
2. Eight per cent. of the amount paid by passenger fares in excess of thirty-five cents.

Under the law the war tax on freight shipments must be paid by whoever pays the shipping charges, and the purchaser of a passenger fare must pay the additional amount levied as a tax, whatever it is. Nothing will be saved by endeavoring to use passenger transportation bought before the law went into effect. The government has taken the pains to prevent this means of escaping taxation.

Nothing will be gained by arguing with the railroad agent or ticket seller, or the poor conductor. They have no disposition in the matter except to collect the tax and send the money to the United States Treasury.

NOTICE TO CATTLE FEEDERS AND BREEDERS.

A meeting of the representative cattle feeders and breeders of Kentucky has been called by Commissioner of Agriculture, Mat S. Cohen, to convene at the Phoenix Hotel, Lexington, Kentucky, Friday, November 9, 1917, at two o'clock in order to discuss the importance and need of stimulating the cattle feeding and cattle breeding industries of the State, which industries at this time are at a lower ebb than at any time since the Civil War. Every cattle feeder and cattle breeder in the State is invited to be present at this meeting and express his views as to the best ways and means of meeting this emergency and stimulating these industries in order to augment the supply of beef and to better prepare for after-the-war demands, which will necessarily be made upon this country.

It is hoped that all who are interested in cattle feeding or breeding may be present at this important meeting.

AN OLD MAN'S STOMACH.

As we grow older and less active, less and less food is required to meet the demands of our bodies. If too much is habitually taken, the stomach will rebel. When a man reaches the advanced age of 85 or 90, you will find that he is a light eater. Be as careful as you will, however, you will occasionally eat more than you should and will feel the need of Chamberlain's Tablets to correct the disorder. These tablets do not contain peppin, but strengthen the stomach and enable it to perform its functions naturally. They also cause a gentle movement of the bowels. (nov-adv)

REMEMBER "OUR BOYS" IN CAMP IN TIME.

On account of so many men being away from home at the various camps throughout the country a very heavy movement of Christmas packages, both by mail and express, is expected this winter. There will be approximately a million soldiers at the various camps, and it is easy to see that unusually early shipment is necessary in order to insure arrival by Christmas morning.

The Postoffice Department has fixed November 15 as the last day for mailing Christmas packages to the soldiers and sailors abroad. Mailing these remembrances in time may save many fine Kentucky chaps from keen disappointment on Christmas morning.

Home For Sale Privately

On account of Mr. Napier's passenger run being changed from Paris to Lexington and Cincinnati necessitating a removal to Lexington, I desire to dispose of my residence at the corner of Main and Second streets, in Paris, at private sale.

This is a substantial brick house, two-stories, has six large rooms; sleeping porch; two concrete porches; large garden and poultry yard; side and front yard. It is a first-class home and will be a bargain for the purchaser. It is in first-class shape. An inspection of the house and premises is invited.

MRS. JESSE S. NAPIER,
(4-tf) 125 Main Street.

Virgin Land For Sale!

150 acres of Laurel County virgin land that would make an ideal chicken ranch. About 75 acres is high, flat land, and balance on a branch between two high bluffs. This branch land has enough tie and small timber on it to pay for it. Would be an ideal place for an orchard, being protected from frost to a great extent by these bluffs. All kinds of fruits would do well. Some of this land would produce fair corn and tobacco, and all kinds of vegetables.

It joins up close to L. & N. station. An opportunity for a hustler to get rich on a small investment. If interested call 404, Cumberland Telephone. (tf)

GROVER MORGAN MAY BE RETURNED TO BOURBON.

Grover Morgan, smooth man and all-around self-confessed bad man, who was arrested in Maysville last week on a robbery charge, will likely be turned over to the Bourbon county officials, where he is wanted on charges of being a fugitive from justice, jail-breaking and on an indictment charging him with grand larceny.

Morgan was classed as a slacker for having failed to report to the Mason County Board of Exemption when his name was called for military examination. He was reported to the Mason County Board, and the officers signified their willingness to turn him over to the Federal authorities if they desired his return.

It developed, however, that Morgan was in the Bourbon county jail at the time the call was issued, and, therefore, could not answer his call, and it is doubtful as to whether or not the Federal authorities will want him because of this.

The Bourbon county authorities are very anxious for the young man to be turned over to them, which will be done as soon as Chief Mackey hears from the Government authorities as to what they will do with their claim on him.

BREAKS A COLD IN JUST A FEW HOURS

"Pape's Cold Compound" Ends Grippe Misery—Don't Stay Stuffed-up!

You can end grippe and break up a severe cold either in head, chest, body or limbs, by taking a dose of "Pape's Cold Compound" every two hours until three doses are taken.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed up! Quit blowing and snuffling! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice and causes no inconvenience. Be sure you get the genuine. (adv)

GREAT GOD! SAID THE WOOD-COCK AS HE FLEW!

Senator LaFollette made public a letter he had written to the Rev. Herbert S. Bigelow, the Cincinnati preacher recently whipped by a mob for alleged disloyal expressions. The Senator denounced the whipping as "an attack upon the liberty of every citizen of this republic," and said "if 'as press reports indicate' officials charged with the administration of justice failed in their duty, other means would be found to unmask and punish those who made the attack."

MRS. P. O. STUCHELL TELLS HOW SHE CURED HER SON OF A COLD.

"When my son Ellis was sick with a cold last winter I gave him Chamberlain's Cough Remedy. It helped him at once and quickly broke up his cold," writes Mrs. P. O. Stuchell, Homer City, Pa. This remedy has been in use for many years. Its good qualities have been fully proven by many thousands of people. It is pleasant and safe to take. (nov-addv)

LIMIT WEIGHT OF PARCELS FOR SOLDIERS IN FRANCE.

Parcel post packages destined for the expeditionary forces in France will be limited on and after November 1 to seven pounds in weight, according to announcement made at the Paris postoffice. This is due to the fact that the French railways will not carry over their lines packages weighing over seven pounds. Customs declarations are not required for such packages.

Persons having friends or relatives in France to whom they wish to send Christmas packages must post them not later than November 15. Every such package must bear conspicuously the words "Christmas mail."

FOR A WEAK STOMACH.

As a general rule all you need to do is to adopt a diet suited to your age and occupation and to keep your bowels regular. When you feel that you have eaten too much and when constipated, take one of Chamberlain's Tablets. (nov-addv)

Fair Warning!

All parties owing accounts more than two months past due to the undersigned merchants, who are members of the Business Men's Protective Association of Bourbon County, are hereby requested to call and arrange with said merchants for a settlement of such accounts at once. Unless you do this, each merchant will, according to our By-Laws, be compelled to give your name and amount of debt to our Secretary for record and collection.

The purpose of our Association is not to put any hardship or place any undesigned criticism upon any one—but something had to be done to break up the "dead beat" business of this county. Your merchant no doubt will act humanely and allow you to pay just a little each week on your old account. Surely you do not want your name to appear in our "Delinquent List."

All your merchant and our Association asks of you is come and let us reason together. Show that you are honest and mean to pay your debts, by even paying a little each week as best you can. This is surely not asking too much. But remember, you must do this at once, before our Black Lists are printed and mailed to each of our members.

The members of the Paris Literary Club met in the sewing room of the Red Cross in the court house basement Wednesday morning and spent the time in knitting and sewing for the soldier boys. At 2:30 p. m. they adjourned to the County Court room where they listened to an interesting and graphic description of the war conditions in Belgium, told by Mr. de Wagenaere, a veteran Belgian, lately returned from the stricken country. No admission was charged, but a free-will offering taken realized a neat little sum, which will be devoted to relief purposes. Following Mr. de Wagenaere's lecture, Miss Lida Hafford, inspector and assistant division manager of the Red Cross, gave a short talk bearing upon questions of vital importance to all the women interested in Red Cross work.

In courtesy to the Paris Literary Club and to the lecturer, the Progressive Culture Club postponed the regular program, and accepted the Literary Club's invitation to be their guests for the lecture.

ALL DRAFTED MEN TO BE IN CAMP BY DECEMBER.

A message received here by the Bourbon County Exemption Board, Wednesday, was to the effect that Provost Marshal General Crowder had forwarded instructions from Washington to the Adjutant-General and military authorities notifying them that the remainder of Kentucky's draft army would be ordered to Camp Zachary Taylor by December 1.

Seven men who have been formally notified are now daily watching the bulletin board for an official notice to report for duty. The remainder of the draft call will comprise quite a large number who had not been expecting such an early call. The call has been made necessary by the transfer of large numbers of enlisted men from Camp Zachary Taylor to Camp Shelby, at Hattiesburg, Miss., in order to bring regiments up to the required army quota.

WINTER STRAWBERRIS.

Mrs. J. H. Campbell, who resides on the Bethlehem pike, near Paris, recently sent to THE NEWS office a small box of large delicious strawberries raised by herself and plucked fresh from the vines. The berries were sound, firm and as sweet as those on the market in the late summer.

THE NEWS man has also been the recipient recently of a box of fine strawberries raised by Mr. Thos. M. Funk, of the Bourbon Laundry. It is Mr. Funk's proud boast that he can have strawberries on his table all winter. The berries he sent us were as delicious as heart (or digestion, rather) of man could wish for.

"REBECCA OF SUNNYBROOK FARM" MONDAY, NOV. 12.

In direct contrast to her more recent characterizations of powerful dramatic qualities, Mary Pickford's next screen portrayal is none other than that of the popular little figure in American literature, "Rebecca of Sunnybrook Farm." During the past year "Our Mary" has received countless requests for her appearance in this famous subject and her picturization of quaint little Rebecca is in direct compliance with popular demand.

Mary Pickford's presentation of "The Poor Little Rich Girl" will live long in the hearts of American picture patrons. In this child part the sweet little actress scored one of her very greatest successes and her adaptabilities to such portrayal were generally conceded to be her most notable accomplishments. However, even greater than "The Poor Little Rich Girl" is "Rebecca," who has become a favorite national character; in fact, a national type established not only in this, but in other countries as well. Replete with native wit of the rural districts and the wholesome charm of untrammelled American girlhood, this story offers Mary Pickford a character that it is generally felt, will prove the crowning achievement of her wonderful career.

OPTOMETRY.

Having realized that Optometry is a profession of itself which requires study and practice and should not be worked in connection with any other business as a side line, I have opened an exclusive optical business, equipping my office with the latest instruments for the refraction of the eyes. As regards my ability to properly fit glasses, will say that I am a graduate of the chartered School of Optometry, which teaches nothing but the "Science of Optometry." I also have the best text-books obtainable. With the past three years actively engaged in this business and the greater part of nine years in the fitting of glasses, places me in a position to offer my services to the public as qualified to do any kind of work pertaining to this profession.

NOTED MOUNTAIN ORATOR AND POLITICIAN DEAD.

Hon. Fountain Fox Bobbitt, the "Cicero of the Mountains," lawyer, orator, scholar and legislator, died at the age of seventy-nine at the Eastern Kentucky Hospital in Lexington, Friday night, but the fact was not known locally until Monday night. Mr. Bobbitt represented Lincoln county in the Legislature, was once a candidate for Congress from the old Eighth District, and was in great demand as a public speaker at every celebration or political gathering in this section of the State. He practiced in all the courts of this section, and because of his flowery oratory, was known as the "Cicero of the Mountains." Some time ago his mind began to weaken, and he was sent to the Eastern Kentucky Hospital, at Lexington, where he remained until the end. He had no near living relatives, and the body was sent to his former home in Crab Orchard for burial.

Too Many Operations

The Right Medicine in Many Cases Does Better than the Surgeon's Knife. Tribute to Lydia E. Pinkham's Vegetable Compound.

Doctor Said Operation or Death—But Medicine Cured.

Des Moines, Iowa.—"My husband says I would have been in my grave today had it not been for Lydia E. Pinkham's Vegetable Compound. I suffered from a serious female trouble and the doctors said I could not live one year without an operation. My husband objected to the operation and had me try Lydia E. Pinkham's Vegetable Compound. I soon commenced to get better and am now well and able to do my own housework. I can recommend Lydia E. Pinkham's Vegetable Compound to any woman as a wonderful health restorer."—Mrs. BLANCHE JEFFERSON, 703 Lyon St., Des Moines, Iowa.

Another Operation Avoided.

Richmond, Ind.—"For two years I was so sick and weak from female troubles that when going up stairs I had to go very slowly with my hands on the steps, then sit down at the top to rest. The doctor said he thought I should have an operation, and my friends thought I would not live to move into our new house. My daughter asked me to try Lydia E. Pinkham's Vegetable Compound as she had taken it with good results. I did so, my weakness disappeared, I gained in strength, moved into our new home, do all kinds of garden work, and raised hundreds of chickens and ducks. I cannot say enough in praise of Lydia E. Pinkham's Vegetable Compound."—Mrs. M. O. JOHNSON, Route D, Box 190, Richmond, Ind.

Of course there are many serious cases that only a surgical operation will relieve. We freely acknowledge this, but the above letters, and many others like them, amply prove that many operations are recommended when medicine in many cases is all that is needed.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

GOVERNOR AND ADJUTANT NOT ON DRAFT BOARD.

In authorizing the Governor and the Adjutant General to reopen draft cases on application, Provost General Growder in an order recently issued, stated there was no intention to make the Governor and the Adjutant General a supplemental board of review. The order permitting the Adjutant General and the Governor to reopen cases has caused any number of applications to be filed with them. Many of these cases are instances where men have been accepted and have no desire to serve. The Governor and the Adjutant General are supposed to open such cases where errors have been made in the construction of the law by exemption boards or through the ignorance of the registrant by which men have been accepted who should have been discharged from service.

IS GERMANY STARVING?

The real food situation in Germany is the important puzzle of the war. The United States Food Administration has gotten hold of some figures on the standard German ration for non-combatants, which seem to indicate that the Germans are in desperate straits. Figured in calories, the food value of this ration is only 10,500. This is not sufficient nourishment to keep a man of 140 pounds from losing weight steadily, even if he does nothing but lie on his back for twenty-four hours a day. If he has work to do, he will eat up his fat, and then his muscular tissues, so much the faster. If the figures received by the Food Administration are correct and are not supplemented by other rations not mentioned, the civilian population of Germany must inevitably be weakening fast.

When they fail to do this the kidneys are weak.

Backache and other kidney ills may follow.

Paris people endorse their worth. Mrs. John Mastin, 1439 High street, Paris, says: "I have used Doan's Kidney Pills with very good results and I can tell from the help they were to me that they would be beneficial in other cases of kidney trouble. I had a dead, dull ache across the small of my back and my kidneys were irregular in action. Doan's Kidney Pills rid me of these complaints and I have faith enough in them so that if I should need a kidney remedy, I would certainly take Doan's."

INDIANA DISTILLERS TO SAVE FROSTBITTEN CORN.

Indiana distilleries will be set in motion to save 50,000,000 bushels of frostbitten corn now standing practically worthless on farms throughout the State, according to members of a committee who have just returned from conference with Federal Food Administrator Herbert Hoover and the Council of National Defense.

The committee was composed of distillers and corn growers of Indiana. The members say the plan of utilizing the corn has been approved and the corn will be manufactured into alcohol.

BUY AT HOME.

In recent years the people have fallen into a custom of waiting until cold or hot weather to buy their new clothing and outfits. It is not often that suits are bought many weeks before actually needed. This being the case, and the cold weather late in arriving, business with the merchants was, for a few weeks a little dull. However, for the past two weeks there has been a wonderful picking up and Paris stores are all crowded.

The people of Central Kentucky have long since learned that they can do as well or better shopping in Paris than in Lexington, Louisville or Cincinnati, consequently they come here and get what they want and at remarkably low prices. The local merchants are well pleased with business so far this season. They have immense stocks to select from.

So have the Maxwell builders fixed a price for their product—\$745—which makes it possible for them to say:

"Below this figure there must be something lacking which we have put into the Maxwell—efficiency, durability, economy, comfort, beauty or standard equipment.

This is the scientific fact—proved and demonstrated by one of the giants of the motor car industry in years of production on an immense scale.

CRISIS IS REACHED BY GER- MANY IN MAN POWER.

Cable reports reaching Washington
from Switzerland say Germany has
reached the crisis so far as her man
power is concerned. For three years,
according to these dispatches, Ger-
many has lost on an average of 1-
200,000 men annually, and this num-
ber will at least be equalled in 1918.
It is contended that to continue the
war, on the same scale for another
year the Germans must have at their
command a reserve of at least two
million men, whereas they actually
will have a reserve of only one and
one-half million, including youths of
the class of 1920.

Where Beauty and Economy Reign

THE Beautiful - Gulf - Coast!

Biloxi and Ocean Springs, Mississippi.

If you would revel among the most
beautiful of shade trees, the mon-
archs of the South, the live oaks, go
to Ocean Springs, Mississippi. Drink
from its mineral springs and enjoy
the ozone from the stretch of shell
road along the sound.

Live simply among its plain but
hospitable small hotels or private
boarding houses; you will never for-
get the view of the Gulf you have
had, or the rejuvenating atmosphere
that you have enjoyed during your
stay.

Biloxi might be called the Riviera
of the Gulf Coast. It was settled by
Iberville in 1699. It was part of the
Louisiana possessions and was the
first colony planted by the French in
the South.

Yes, it is true that you will find
there the old civilization and the
new. Truthfully we may also say
that it is one of the most restful
and charming resorts on the North
American continent.

We have found it most delightful
just following the Christmas holi-
days in mid-winter; but it is also
most agreeable in the summer-time,
as the breezes from the Gulf of Mex-
ico fan the shore at some time each
day.

Many legends have been centered
at Biloxi, which doubtless had their
origin from the time of the Indian
to later civilization. A grand old
oak, with gnarled and twisted
branches and hanging moss, stands
in the churchyard of the picturesque
Church of the Redeemer—it has been
the basis of many a legend and verse.

How beautiful are those homes
along the beach where nature has
been undisturbed. Beyond the narrow
streets of Old Biloxi one can skirt
again the shell road, pass the
"home for guests" and the light-
house, and be a welcome guest also
at one or more of the beautiful pri-
vate villas lined along the shell road.
Several of these have their own pri-
vate piers with boat-house or bath-
ing-house at the end of the pier, with
out on the water. Boating, bathing
and fishing are recreations that be-

long to the out-of-door life in Biloxi
nearly all the year round.

Biloxi is not wholly dependent
upon tourists. It has an all-the-
year-round population. A Tourist
Club is sustained during the winter
months from a colony largely of Mid-
dle States, Northern people who cen-
ter there yearly from mid-winter to
early spring. Never has the writer
seen more glorious sunsets or more
beautiful moonlights. What more
fascinating than the silvery sheen in
the wake of a white sailboat as she
silently glides along. Her hold may
be filled with oysters which she may
be carrying to be unloaded at some
oyster house a mile or so around the
bend of the bay; or it may be that
with Shrimp from deeper waters
she is laden. If you happen to be
there next morning, where the boat
is being unloaded you will find it a
process worth seeing. Inside of a
long building all is activity—men,
women and children are employed by
the hundreds in opening the oyster
shells. The oysters are first dropped
into tubs of water and the last pro-
cess is when they are placed in cases
which are sealed and neatly labeled
and then are ready for the market.

There are homes for the workers
and their families who live near the
plants or oyster factories. There is
also a settlement house not far
away with beautiful trees about it,
with kindergarten and playgrounds
for the children, who are thus cared
for while their mothers are at work
at the oyster houses. The season is
short and consequently the earnings
are for only a short time of the year.

Again and again from the cold
rigid winters of the north we shall
seek the shore of beautiful Biloxi
and perhaps now and then for a
respite in the summer, too.

So when you made up your route
for trips South henceforth, we advise
you by all means to include Biloxi
or Ocean Springs.—Carlyle Porter.

These are two of the popular and
attractive resorts on the beautiful
Gulf Coast and reached by the mod-
ern steel passenger trains of the
